Regarding Discontinuation of Uninterruptible Power Supply Unit (N11A502DHR-Type/N11A502DVR-Type)

Notice

Due to discontinuation of the uninterruptible power supply unit (N11A502DHR-Type/N11A502DVR-Type), since April 2021, we have progressively been shipping machines with a new uninterruptible power supply (UPS) unit [optional accessory]. There is no difference in the dimensions and performance of the old UPS (discontinued models) and the new UPS. If there are problems with an old UPS, it is possible to use the machine by replacing it with the new UPS.

Details of change

	Old UPS (discontinued)	New UPS
Model	N11A502DHR-Type N11A502DVR-Type	MSP832SFEAC2T-CPN MSP832SFEAH2T-CPN
Weight	50 kg	45 kg

Precautions

- The following installation-related parts are not interchangeable between the old UPS and new UPS.

Installation-related parts that are not interchangeable	Reference source for part no.
Battery (consumable)	Please verify the details indicated in the new UPS manual.
Power cable	Please contact DISCO.
Communication cable	

- For the new UPS, machine anchoring brackets are not included as a standard item.

Inquiries

Please contact your local DISCO sales representative or customer engineer if you have any questions regarding this matter.
